INTL CLASS: H04N-001/00; **G06F-013/ 00** ; H04N-007/15

**ABSTRACT**

...TO BE SOLVED: To simulate an actual conference with good operability by closely interlocking a **common** use **white board equipment** with a **common** use material display device...

...SOLUTION: The cooperative work aid system is composed of a **plurality** of terminal equipments, interconnected by a network 20 where each is composed of a commonly used white board **equipment** 31 provided with a means providing the same image among a **plurality** of terminal equipments and a commonly used material display device 32 provided with a means displaying an image of a paper material used in common among a **plurality** of the terminal equipments. In this case, image data exchange means 8, 9 are provided to the commonly used white board **equipment** 31, commonly used material display device 32 to exchange image data on the screen between the commonly used white board **equipment** 31 and the common use material display device 32 and image data used by the commonly used white board **equipment** 31 and image data used for the commonly used material display device 32 are not independently received, by exchanging directly the image data between the commonly used white board **equipment** 31 and the commonly used material display device 32.

...SPECIFICATION system 50 mail services. Because of the importance of timely handling of the information, both **shippers** and **carriers** may use the system's interactive services to resolve problems. In addition, a supplier can search automatically the **freight** services posted on a system **bulletin board**. The **main** advantage of this service is the ability to piggyback partial **loads** on already scheduled **routes**. To search the bulletin board, the shipper has to specify details about the source, destination, and nature of the **load** as well as limitations, if any, on the **carriers** he is willing to use. The selected offers are then submitted to the shipper's...

Detailed Description

Claims

Detailed Description

... previously entered information.

This system also affords the integration of the various aspects of other **freight** management software / internet applications creating a unique transportation tool to address the entire fractionalized / assorted individual **freight** transportation industry **offerings / products** including order entry, procurement, tracking, tracing, proof of delivery, order visibility, warehouse fulfillment, insurance, accounting...  
...finance, and other industry services by providing such access through one proprietary industry portal or **grand master bulletin board** system.

The aforementioned are crucial elements in providing a usable environment eliminating the need for...

...5

commerce business-to-business community integration.

The system's user internet sites including individual, **group** and **master boards**, both public and private, reside on a **Grand Master Bulletin Board** which with passwords, codes, multiple level and area filtering and sorting by such elements as corporations, individual names, **load / loading**, **equipment**, product, service parameters, etc. the separate individual user bulletin boards are accessed. This **grand master bulletin board** concept is an extremely important element in the entire process because it permits total integration...

...carrier would have an opportunity to provide rates or bids to move various freight or **loads** for individual and **multiple shippers**. If that carrier had to address each company's internet site individually, such a process...

...needs to be able to integrate such sites to allow their

7

viewing on one **master bulletin board** site for the carrier that can be effectively sorted and filtered along with **multiple** on screen **bulletin board** presentations to first allow for efficient handling of the vast amount of information that must be addressed, on **many** occasions in real time, second to permit desired **freight** and **equipment** optimization and third to produce internal time / cost / personnel savings for the carrier. The carrier...

...into one master member number and authorization code permitting the carrier automatic full access to **load** information to all of the sites with just the main ...load/equipment optimization. IO. Other users, networks and systems can be accessed through the grand **master board** via any **individual** or **master board** with the proper authorization.

To Sort, Filter, Save, Archive or Delete on a Bulletin Board...

...equipment along with any requirements, similar to shippers placing loads with their requirements, on a **combined bulletin**

27

**board** (the bulletin board displays both **loads** and **equipment** ).

Carriers enter information in a Request For Bid format (RFB) the same as shippers enter...and the selected carrier all win in the arrangement.

To Post Products on a Combination **Master Bulletin Board** .

Just as shippers can request bids and/or rates for hauling freight from carriers, selling...

...products along with any requirements, similar to shippers placing loads with their requirements, on a **combined master bulletin board** (this **board** displays **loads** , **products** , services, **equipment** , **tours** , etc.).

Selling shippers enter information in a Request For Bid format (RFB) the same as...

...services along with any requirements, similar to shippers placing loads with their requirements, on a **combined master bulletin board** (this **board** displays **loads** , **products** , services, **equipment** , **tours** , etc.).

Offering shippers enter information in a Request For Bid format (RFB) the same as...

Claim

... on open and/or private access networks (PAN), any one of which may have separate **master bulletin boards** combining selected **shippers** ' and/or **carriers** ' bulletin boards, are all part of a system **grand master bulletin board** . One **bulletin board** might have eight columns, whereas another bulletin board might have twenty columns along with customized...

...an arduous time consuming and frustrating method of business to business communication;  
and  
wherein the **grand master bulletin board** will be duplicated on multiple sites and at multiple locations all fully integrated and continually...

...time frames earlier and/or later, number of intermediate stops, type or name of commodity, **equipment** type and length, **load** weight, suggested or preferred price for carriage or purchase, shipper and/or carrier **load** numbers, and system **load** identification numbers. Additional and customized **load** information items can be indicated on more complete bulletin boards; and  
wherein any and all...shippers and carriers and services entities using the system through the individual bulletin boards, the **master bulletin boards** and the **grand master bulletin board** remain the same.

27 The method of claim 1, wherein multiple screens can be viewed...

...of the products or load requests). This multi area relational viewing capability due to the **master bulletin board** concept allows **shippers** , **carriers** , **vendors** , product and service suppliers to all maximize the effect of their **offerings** .

28 The method of claim 1, wherein shippers and carriers can be included on may...

Abstract: The instrumentation and control systems at Fulton Station incorporate modern, solid-state electronic **equipment** mounted in standard size modular control boards. The control room **equipment** is packaged and arranged to satisfy nuclear plant design requirements as well as human engineering needs. The **individual control board** or console sections are shop-tested prior to shipment. Use of modular boards and interfacing prefabricated cabling allows for installation of electronic **equipment** after building construction is complete and well into the construction phase of the plant.

**From Shared Whiteboards to Collaborative Computing**

(There are a number of issues to be resolved before collaborative computing in the videoconferencing industry can become reality)

Article Author(s): Hoffert, Eric

Telecommunications Americas Edition Telecommunications, v 30, n 5, p 48-50 May 1996

DOCUMENT TYPE: Journal ISSN: 0278-4831 (United States)

LANGUAGE: English RECORD TYPE: Fulltext; Abstract

WORD COUNT: 1709

**ABSTRACT:**

...provision of total audio-video-data collaboration. At the moment, the premier form of data **collaboration** is the shared **whiteboard**. However, the shared whiteboard remains basically a proprietary solution that does not encompass multiple platforms...

...that distinct networks can interoperate communications. Article also discusses application programming interfaces and cites what **different vendors** are doing to deal with collaborative computing.
